

VTE-208

FILTERED NITROGEN AIRGUN

FEATURES

- No Particle Generation
- Variable Flow Control
- 200 p.s.I. Rated input
- Durable—Long Lasting
- Chemically Resistant
- Ergonomically Designed
- 0.2 μ m Filters

TYPICAL APPLICATIONS

- Semiconductor Manufacturing
- Disk Drive Manufacturing/
Assembly
- Biomedical Manufacturing
- Wet Processing Stations
- High Purity Piping
Manufacturing
- Pharmaceutical Manufacturing

ACCESSORIES

- 1/4" NPT Fitting
- 10' & 20' Coiled Hose
- Replacement Filter
- Regulator Assemblies
- Cleanroom Packaging
- Total Gun Assembly

D DESCRIPTION

The model **VTE-208 Filtered N2 Gun** is a hardwearing, durable and user-friendly blowgun for most areas of application and is an attractive gun that is comfortable to use. This new series offers increased blowing capacity, lighter weight, an improved ergonomic design, simple suspension, and a smoother, more flexible operation. It has been tested against other popular guns on the market and results indicate virtually no particle generation with every pull of the variable output throttle (0-80 psi). The replaceable 99.99% (0.2 micron) filter meets all users' requirements for all applications. The attractive body design made of extremely durable acetal plastic isolates against cold media, and will withstand most hazardous chemicals used in today's "High Tech" industry. This versatile design makes it the perfect fit for either right or left hand users. The input of the gun accepts ¼" NPT fittings. Replacement filters and gun enhancement accessories are available. For better quality and longer lasting nitrogen use, contact us or your local sales representative.

VTE-208 Nitrogen Air Gun & Accessories

VTE-208	Filtered Nitrogen Air Gun
RF10-1	Replacement Filters (10/bag)
HC1	Hose Fitting (¼" NPT)
CH10	10' Coiled Hose
CH20	20' Coiled Hose
RG	Pressure Regulator
RGN	Regulator Nipple
RGF	Regulator Filter (0.5 µm)
RGG	Regulator Gage
RMB	Regulator Mounting Bracket
VTE-208-TGA	Total Gun Assembly <i>including</i> gun, hose, regulator, filter, fittings, gauge, bracket
VTE-208-CP	Clean Room Packaged (VTE-208 only)
